OUR STORY AND ROADMAP

Product first. Then community. Now the token.

NFT Energy did not start with a token. It started with a real energy drink, then built a community around it, and the Wabbit token now connects the two. Here is where we have come from, where we are now and where we are going.

PHASE 1

The Product

2022 to today

DELIVERED

- **November 2022:** NFT Energy launches as a zero-sugar energy drink built by and for the Web3 community.
- **December 2025:** sold out 40,000 units.
- Out in the real world at crypto events including Bitcoin Nashville 2024, Bitcoin Vegas 2025 and Bitcoin Pizza Day.
- Sold online at nftenergydrinks.com and shipped across the United States.
- Next production run underway: the new 12 oz sleek can, made with a US co-packer.

PHASE 2

The Community

The Energy Wabbits

LIVE · 75% MINTED

- **The Energy Wabbits:** a 2,500-piece NFT collection on Solana, minting on GraveMint. As of this update, 75% of the collection has been minted.
- The Energy Wabbit is the official mascot and face of NFT Energy.
- **Holders vote** on future NFT Energy flavors and can designs.
- Holder pricing on drinks and merch, token-gated merch drops and access to IRL meetups and events.
- **Diamond Ear:** holders of 10 or more Wabbits get 15% off drink orders, first access to new flavor drops and the chance to have a custom 1-of-1 Wabbit featured on a limited-edition can.
- The Wabbit Hole opens as the community's home for games, community votes and holder enrollment.

PHASE 3

The Token and Ecosystem

November 2026

NOW

- **$WABBIT launched on Solana** through MemeWarzone, with a 1,000,000,000 total supply.
  `Contract: 3ropwqf75V8qbtRHBdQMQjnFSeDYtFmRkWUpKtdeXQ3V`
- The company's 400,000,000 tokens sit in three separate wallets with one job each: Community Rewards, Team and Wabbit Treasury.
- **Rolling out in stages:** community rewards, NFT Energy drink purchase rewards, and Wabbit token games and contests on the Wabbit Hole.
- Then: paying with Wabbit at checkout for drinks and merch, minting Wabbit NFTs with Wabbit, and holder perks.
- The Wabbit Loop keeps tokens moving: spent tokens return to Community Rewards and go back out to the community.

PHASE 4

Growth and Expansion

2027 and beyond

NEXT

- **Retail and distribution:** taking NFT Energy from online orders to store shelves through retail and distribution partners, and into new states.
- **New flavors**, chosen with Wabbit holders.
- **A bigger Wabbit Hole:** more games, tournaments and the Wabbit Market for creator shops.
- **Partnerships** with other brands and NFT communities, including partner prizes and collaborations.
- **More IRL:** larger activations and community events, plus a growing Wabbit and NFT Energy merch line.
- New ways to use Wabbit across the ecosystem as each piece goes live.

Roadmap items describe plans and may change, be delayed or not happen.

LAUNCH

Launched on MemeWarzone

How it launches

The Wabbit token launched on MemeWarzone on Solana in November 2026. Official contract: `3ropwqf75V8qbtRHBdQMQjnFSeDYtFmRkWUpKtdeXQ3V`. Buyers purchase from the launch curve. When the curve completes, the token moves to an open trading pool where anyone can buy or sell.

The company buy

At launch the company makes one buy of 400,000,000 tokens and places them in three separate wallets, Community Rewards, Team and Wabbit Treasury, listed on our website. The other 600,000,000 are public. Company tokens are not sold at launch.

IMPORTANT INFORMATION

Wabbit tokens are for use in the Wabbit Ecosystem. They are not shares in NFT Energy and do not give ownership of the company, a right to its revenue or profits, or any promised return. The price of the token can go up or down, and you can lose the money you use to buy it. Nothing in this paper is financial advice.

This paper is for information only and is not an offer to sell, or a solicitation to buy, anything. Plans described here may change, be delayed or not happen. MemeWarzone, GraveMint and Solana are third-party platforms that NFT Energy does not control, and smart contracts and wallets carry risk.

Rewards, holder perks, prices, games and prizes can change. We announce changes before they take effect, except when needed to stop fraud or abuse or to follow the law. Rewards earned under the rules are honored; rewards from fraud, abuse or errors may be cancelled.

Games, contests and rewards are for people 18 and older in eligible locations, and each follows its official rules. Some features may not be available where you live. You are responsible for any taxes on tokens or prizes you receive. NFT Energy drinks ship within the United States only.

See the Terms of Use. Official rules are posted with each game and contest.
